- An interactive learning experience that combines storytelling and play
- Helps children grasp the concept of time and sequence
- Enhances logical thinking and coordination through hands-on play
- Perfect for parent-child bonding and shared playtime
- Made with high-quality, child-safe materials, ideal for little hands

These interactive books help young children understand the concept of life cycle and time through storytelling and play. Each volume presents a natural transformation—from a caterpillar to a butterfly or from a seed to a blooming flower—with simple text and clear illustrations that make learning easy and fun.

Each book includes a sequencing puzzle with large, sturdy pieces designed for little hands. Assembling the puzzle helps children recognise the order of events, developing logical thinking, motor skills, and cognitive abilities in an engaging way. A perfect blend of reading and hands-on activity, designed to stimulate curiosity and learning through play.

Also available in the series: *Becoming A Flower: Grow-a-Puzzle* ISBN 9788854421929.

Ages 3 plus.

Ester Castelnuovo has a degree in scenography from the Brera Academy of Fine Arts. In addition to her numerous collaborations with publishing houses, she creates animated scenography for notable theatres.
