"A must for art lovers who like their culture with a side of room service." — **Boss Hunting**

For centuries, art, design, and architecture have been used to transform, illuminate, preserve, and make sense of the world in which we live. Art and design, much like travel, are acts of discovery, invitations where influence, healing and enchantment are all possible. And as we travel, these art forms connect us to the unknown, deepening our comprehension and appreciation of the places and people we visit. The 28 hotels featured in this book creatively embrace art in its many forms to provide authentic reflections and experiences for every guest. ***The World's Best Art & Design Hotels*** is dedicated to the influence, discovery, and power of art and design, as we travel — bon voyage!
