- A selection of the best and most inspiring photos from the hugely popular app, Instagram
- Nature and technology clash, with stunning results

The *Insta Grammar* series explores the best of the best in amateur photography, focussing on the immensely popular social media site, Instagram. After *Cats*, *City* and *Nordic*, *Green* is the fourth and latest title in this series, which closely follows online trends. The reason is obvious: green is the new black. Be inspired by photos of plants, trees and everything green, and enjoy the creativity of the selected photographers. Also available in the series: *Insta Grammar: Cats* ISBN 9789401436953 *Insta Grammar: City* ISBN 9789401436915 *Insta Grammar: Nordic* ISBN 9789401436946
