Pages	160 Pages
Illustrations	100 color
Price	£30.00

- A journey aboard Ducati's new Multistrada V40 along some of the most beautiful roads in Italy

The photographs collected in this volume accompany us aboard the new Multistrada V4 produced by Ducati, to discover its spirit which coincides with the very essence of the journey: 3000 kilometres travelled along some of the most evocative itineraries in Italy, or on the coastal roads of Sardinia, on the summit craters in Sicily and on the snow-capped peaks of Abruzzo.

Speed and control, power and balance of this vehicle — the result of an ambitious project that represents a turning point not only for the famous Italian motorcycle manufacturer but for the entire industry — blend with the landscapes of the surrounding nature, restoring the experience of a journey with just one ultimate goal: the road itself.

Text in English and Italian.
