Size	165 mm x 165 mm
Pages	400 Pages
Name of series	A World to Preserve
Price	£12.99

- Part of *A World to Preserve* series
- Mesmerising pictures combined with powerful quotes about the importance of protecting the world around us

The *A World to Preserve* series brings together breathtaking landscapes, inspiring quotes, and infographics about environmental issues that take the reader on a journey through the depths of the earth. “We really have the most beautiful planet in our solar system. None other can sustain life like we know it. None other has blue water and white clouds covering colorful landmasses filled with thriving, beautiful, living things like human beings.” – Sunita Williams

The mesmerising pictures in ***The Earth*** are combined with powerful quotes about the importance of protecting the world around us. Each chapter begins with an infographic depicting the issues faced by that area of the world, like our forests, prairies, mountains, and glaciers. The photos and the quotations that accompany them help us rediscover the amazement and respect inspired by uncontaminated nature.
