Publisher	Pelckmans
Binding	Hardback
Territory	USA & Canada
Size	9.45 in x 12.99 in
Pages	160 Pages
Illustrations	100 color
Price	$70.00

- The World of Colour According to Per Benjamin is an educational-entertaining-inspirational book where Per Benjamin's color theory is explained in text
- All of the pictures included illustrate how it is possible to extract colour tones from a material both in theory and in practice

In the past ten years, Swedish floral designer Per Benjamin developed his own color theory. *The World of Colour according to Per Benjamin* is an educational-entertaining-inspirational book where his color theory is explained in text, but above all presented in a very creative, visual 'hands on' style in beautiful pictures and colour charts. The photos are a mixture of studio works, outdoor pieces and bigger event designs (such as the Nobel Prize award ceremonies) and show both small and extra large arrangements. All of the pictures included illustrate how it is possible to extract color tones from a material both in theory and in practice.
