- Of interest to a wide range of audiences with an interest in Architecture, Urban Planning, Interior Design, and Sustainability, as well as more esoteric interests like Futurism, Science Fiction, and Virtual Design
- AS+GG's leadership is internationally known for designing some of the world's most iconic structures including signature towers, corporate headquarters, mixed-use high-rises, luxury residences, and five-star luxury hotels
- The book will cover projects that are internationally known (FKI Tower, Waldorf Astoria Beijing, Central Park Tower), over 20 buildings under construction (Wuhan Greenland Center, Chengdu Greenland Center, Al Wasl Plaza), and conceptual favourites spanning 15 years (Biophlic Tower, 1 Park Avenue, 1 Dubai)

Adrian Smith + Gordon Gill Architecture's, 2006-2021 monograph showcases the spectacular work of the firm from the first 15 years of its practice through drawings, renderings, model photography, photography of built work, competition entries, exhibition materials, master plans, interiors, and special research projects and publications.
The projects featured in the monograph cover a wide variety of AS+GG's high-performance, energy-efficient, aesthetically striking architecture on an international scale in a wide range of typologies and scales, from low- and mid-rise residential, commercial, and cultural buildings to mixed-use supertall towers. Projects explored include supertall towers, large-scale mixed-use complexes, corporate offices, exhibition facilities, cultural facilities and museums, civic and public spaces, hotels and residential complexes, institutional projects, and high-tech laboratory facilities.
