"As enterprises embrace AI and automation, three challenges emerge: empowering employees as roles shift, enabling continuous reskilling without disruption, and creating real synergy between AI and human talent. Drawing from real-world transformation programs, this book offers a practical playbook to address these shifts — not with theory, but with actionable strategies, proven tools, and human-centric design. The new AI era demands more than technology; it demands a reimagined employee experience that fuels performance, personalizes learning, and strengthens coaching. When done right, this isn't just adaptation. It's transformation, helping people stay relevant, resilient, and ready for what's next." — **Gal Rimon**, Founder and CEO, Centrical

"With clarity and structure, this book turns the overwhelming topic of AI into the confidence leaders need to simply get started." — Eline Lostrie, Co-CEO, nexxworks

Al Will Replace You shows how organisations can let go of their fear of Al and instead embrace this technology as a lever for growth. Using the practical and accessible Al Navigator framework, you'll discover how to effectively embed Al into your strategy, get your employees on board, and prepare your organisation to become an Al leader.

Maarten Verschuere and **Paul Joustra** are experts in Al transformation. As entrepreneurs and keynote speakers, they combine hands on experience with a clear vision. Through Cleverland and Teleperformance, they help organisations worldwide to deploy Al strategically, guiding teams from Al anxiety to tangible growth and digital transformation.
