- Original photography by a young artist; discover the world in a whole new way
- The photographs in this book, although taken of actual-size subjects, appear to be of miniature models
- Follows on from the success of the first three volumes - *Belgium, Antwerp*, and *New York*

Photographer Jasper Léonard previously resized Antwerp and New York and now points his special tilt-shift lenses towards Amsterdam. ***Amsterdam Resized*** shows you the city like you've never seen it before: the famous canals of Amsterdam have been reduced to mere trickles with mini-sized bridges; the joggers in the Vondelpark now resemble Playmobil puppets, and the Stedelijk Museum now looks more like a bath tub. A new book in the *Resized* series, which has been a huge success in the US with articles in, among others, *USA Today* and the *New York Post*. International press has heaped praise on the Resized series: *"The book is an intimate and magical token of admiration."* – The Sydney Morning Herald Also available: *Antwerp Resized* ISBN: 9789401432702 *Belgium Resized* ISBN: 9789401434614 *New York Resized* ISBN: 9789401443395

Text in English and Dutch.

Jasper Leonard acquired a Master of Visual Arts at the Sint-Lucas College of Antwerpen in 2010. However, even as a child Leonard had always been fascinated by photography.
