- The perfect tool to develop outlets for both emotional and artistic expression
- Illustrations suitable for a wider-than-usual range of abilities!

Animals! Each page is an invitation for self-expression through creative and imaginative colouring. In several illustrations, more white space is deliberately left for children to complete with the patterns or characters of choice. An added bonus: The varying difficulty of the drawings makes the colouring book suitable for both beginner and more experienced colourers! Ages 6+

**Camilla Garofano** was convinced she wanted to design theatre costumes for the rest of her - life until she found immense satisfaction in drawing little creatures and imaginary worlds. Garofano now works with digital media and children's illustrations.
