Introduce babies to dozens of animal shapes in this visually-stimulating addition to the *Baby Montessori Expanded* board book series. These shapes are easily recognisable due to the high-contrast images printed in the first three colours babies can perceive: red, black, and white. From household pets to wild animals, these chunky board books are the perfect introduction to shapes and animals for developing minds!

Designed with expert guidance, these sturdy board books feature easily recognisable animals and shapes, sparking visual development and early sensory growth with every glance.

Age-Appropriate Format: The square, sturdy format is perfect for small hands, encouraging dexterity and focus.

Inspired by the Montessori Method: Stimulate developing minds through this series of three-color, high-contrast images with no text.

Stimulates Early Growth: Simple shapes, bold colours, and immediate themes (like animals and the world) capture attention and encourage curiosity, early associations, and sensory growth, turning reading into a visual, multisensory experience.

Expertly Developed: Created in cooperation with cognitive development experts, focusing on visual clarity, safe materials, and effective communication for newborns.

Introduction to Animals: A first introduction to animals of all shapes and sizes.

Age 0 plus.
