- **Series with Clear, Familiar Themes:** Opposites and early concepts (big/small, up/down, day/night)
- **More Images Than Ever Before:** This chunky edition contains dozens more pages than previous instalments in the series!
- **Expertly Developed:** Created in cooperation with cognitive development experts, focusing on visual clarity, safe materials, and effective early learning of opposites
- **Age-appropriate Format:** Highly resistant board format ideal for babies and early handling
- **High-contrast Images:** A key feature for baby-focused early learning collections

Introduce babies to early concepts of opposites in this visually stimulating addition to the *Baby Montessori* board book series. These contrasts are easily recognisable thanks to high-contrast images printed in the first three colours babies can perceive: red, black, and white. From big and small to day and night, these chunky board books are the perfect introduction to opposites for developing minds!

Designed with expert guidance, these sturdy board books feature simple contrasting pairs that spark visual development and early sensory growth with every glance.

Age-Appropriate Format: The square, sturdy format is perfect for small hands, encouraging dexterity and focus.

Inspired by the Montessori Method: Stimulate developing minds through this series of three-colour, high-contrast images with simple opposite pairs and no text.

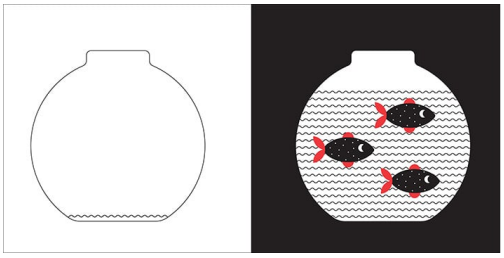

Stimulates Early Growth: Simple contrasts, bold colours, and immediate themes (like big/small and up/down) capture attention and encourage curiosity, early associations, and sensory growth, turning reading into a visual, multi-sensory experience.

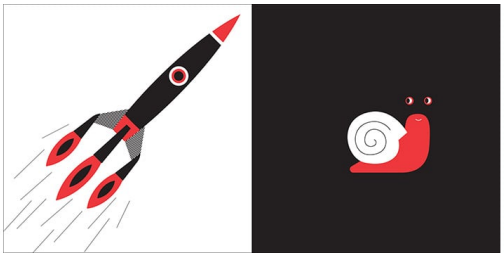

Expertly Developed: Created in cooperation with cognitive development experts, focusing on visual clarity, safe materials, and effective communication for newborns.

Introduction to the World Around the Child: A first introduction to the concept of opposites.

Age: 0+
