Introduce babies to dozens of basic shapes in this visually stimulating addition to the Baby Montessori board book series. These shapes are easily recognisable thanks to high-contrast images printed in the first three colours babies can perceive: red, black, and white. From circles and squares to triangles and stars, these chunky board books are the perfect introduction to shapes for developing minds!

Designed with expert guidance, these sturdy board books feature clear, simple geometric forms that spark visual development and early sensory growth with every glance.

Age-Appropriate Format: The square, sturdy format is perfect for small hands, encouraging dexterity and focus.

Inspired by the Montessori Method: Stimulate developing minds through this series of three-colour, high-contrast images with simple shapes and no text.

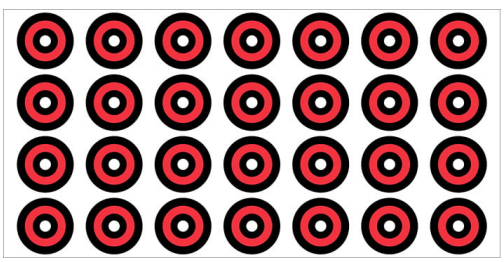

Stimulates Early Growth: Simple geometric forms, bold colours, and clear visual patterns capture attention and encourage curiosity, early associations, and sensory growth, turning reading into a visual, multisensory experience.

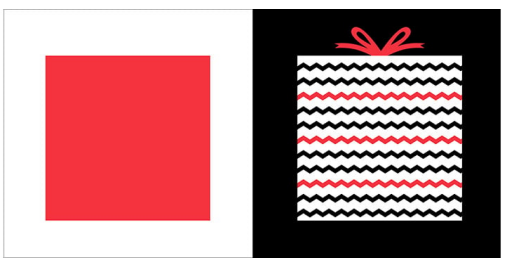

Expertly Developed: Created in cooperation with cognitive development experts, focusing on visual clarity, safe materials, and effective communication for newborns.

Introduction to the World Around the Child: A first introduction to basic shapes.
