- An up-close architectural inspection of the Farmhouse by the Lake

The farmhouse gained a contemporary freshness while respecting existing elements and using only a few external measures. Inside, a surprisingly multifaceted world has been created that impresses with its high-quality finishing, humour and consistency. The conversion thrives on surprising moments: the tension created by differently proportioned rooms, the varied interior furbishing and the direct nature of specific solutions that pick up on original uses.
Text in English and German.
