When we look at nature, we can perceive both beauty and mystery. Islands emphasise this duality even more. Known as luxury get-away destinations, as well as the metaphorical symbol of solitude, isolation, and abandonment. In reality, islands are multiple: from a tropical ocean paradise to land in a cold northern sea. Each one with its own unique appearance, ecosystem, and personality. Each one with a story to tell, actual and spiritual. This book captures the most fascinating islands on planet earth and tells their story through captivating photos and inspiring words.

Nicola Balossi Restelli is an author and aficionado of mountains, folklore, and sports. Nicola has contributed articles to online magazines and blogs. He has also worked for various publishers and published numerous stories and essays.
