- In this interactive book with flaps, the ability developed is
- Exploring Orientation and spatial-temporal coordination are trained
- Curiosity is encouraged by giving the reader the tools to face increasingly complex situations and the most difficult and important tasks
- Suitable for ages 3 to 5 years

The book is based on studies by Sylvie Droit-Volet about the perception of time in children, and the activities are proposed in everyday circumstances, such as preparing for going to school. In this interactive book with flaps, the ability developed is Exploring: orientation and spatial-temporal coordination are trained, curiosity is encouraged by giving the reader the tools to face increasingly complex situations and the most difficult and important tasks. Ages: 3 to 5

Chiara Piroddi is a psychologist and psychotherapist, specialising in child and adolescent psychopathology. Graduating in Psychology in 2007 from the University of Pavia, she attended a Masters course in Neuropsychology in 2009, and in 2013 specialised in Cognitive Psychotherapy in Childhood and Adolescence after a four-year course at the Crocetta Clinical Center in Turin, Italy. Born in Fucecchio,

Giulia Quagli works in Studio Fuffa with three other illustrators. She attended science college to then enroll first at the Accademia di Belle Arti and then at the Scuola Internazionale di Comics in Florence. In 2014, she turned digital and has collaborated with Giunti, Piemme edizioni, Mondadori, Zanichelli, Pearson, and Gribaudo to mention just a few. She is a member of Fuffa, an illustration studio based in Tuscany that was created by a team of four friends passionate about illustration and books. Together they make picture, activity, and interactive books, as well as puzzles and toys. Between them, they have years of experience in the editorial field, and they share the same goal: to create something beautiful.
