Insects have been around for over 400 million years! These incredible creatures are as varied as they are small – from those with 6 legs to those with 1,000. Learn about how they work and how they live. Then, switch to another edition of*Mad for Science* to learn about organic chemistry and the fundamental building blocks of all living beings. Each book contains 56 packed pages of games and activities, including instructions for executing your own, easy-to-do experiments with household items! Ages 6-7

Tecnoscienza is a group of authors and educators that, for the last 15 years, have disseminated knowledge about science, technology, math, and the environment for museums and corporations alike. Their published titles have been translated worldwide.**Agnese Baruzzi** holds a graduate degree in graphic de- sign and has worked as an illustrator and author since 2001. Her books have been published in several countries around the world.
