- Mix and match heads, thoraxes, and abdomens to make 1,000 remarkable insects!

From the best-selling illustrator of *Flip-a-Feather, Mix-a-Mutt, Flip-o-saurus*, and *Flip-o-storic* comes another book with charming artwork and die-cut pages for flip-and-flop fun – this time with insects! ***Build-a-Bug*** lets you create wacky combinations of ten types of insects, including a curious beetle, a climbing caterpillar, and a buzzing honey bee.

Each flap includes a fun fact about the pictured species, and inside the front cover is a chart showing the relative sizes of the insects featured, from the ant to the praying mantis.

Sara Ball is a prolific illustrator of children's books, including Abbeville's *Flip-a-Feather, Mix-a-Mutt, Flip-o-saurus*, and *Flip-o-storic*.
