<b>Price</b>	£14.50

This is the sixth edition of the BBVA's annual series, dedicated to exploring and disseminating the key issues of our time. Esteemed scholars from around the world examine the internet as an agent of change, incorporating the most current knowledge on the subject into their essays while using accessible language. They address the impact of the internet on a social, cultural, economic, political and scientific level, but also how it affects people's daily lives: their relationship habits, leisure and work.
