- These timeless coastal villas will appeal to architects, interior designers, and decorators, as well as students of architecture and aspirational lovers of residential architecture

Coastal Villas: Luxury Living on the Gulf Coast showcases 13 stunning villas designed by Geoff Chick & Associates in the timber-framed vernacular style of Florida’s 19th- and 20th-century architecture. From minimalist retreats poised on the edge of the surf to sprawling family homes nestled among pine forests, these houses reflect respect for the land and water that surround them. They draw inspiration from the Gulf Coast vernacular—the inviting porches, tall ceilings, and raised pier footings—while updating these elements for a contemporary audience.

This monograph of Geoff Chick & Associates is a celebration of architectural innovation tailored to the Gulf Coast’s complex interplay of relentless sun, occasional hurricanes, and delicate ecosystems. These homes transform natural challenges into opportunities for creative expression, integrating gracefully with their surroundings, encapsulating the idea of design and nature as complementary.

Award-winning architect **Geoff Chick** has dedicated over two decades to designing homes that are deeply connected to their environment and inherently personal. He founded Geoff Chick & Associates with the vision of creating homes that authentically reflect the lives, landscapes, and stories of their inhabitants. His practice thrives on close client collaboration and is guided by a profound appreciation for craftsmanship and the unique characteristics of each location. Each of Geoff’s projects exemplifies a timeless fusion of artistry and function, offering both poetic vision and pragmatic solutions. Living and working in Florida, Geoff draws inspiration from the natural beauty and rhythm of the Gulf Coast, and the distinctive architectural traditions of the Florida Panhandle.
