- Homes that show you how to combine colours in your interior
- A worldwide selection of 27 high-end interiors that daringly, but tastefully combine colour
- A source of inspiration, including tips & tricks
- Shot by the best interior design photographers out there

This book is for people who are fed up with white, beige and earth tones. Colour in your interior has been a hot topic for some time and this book focuses on the combination of different colours. ***Colour Combinations*** shows 27 best practices from Milan to New York, homes in which the designer has succeeded in putting together a balanced colour palette. The book inspires and makes you dream of getting started yourself. From a Paris apartment that celebrates primary colours to the Bologna home of a young Chilean architect where pastel shades meet.

Marlous Snijder is the driving force behind the interior design website 'Oh Marie!' She has several interior design books to her name, including *Japandi Living* and *Japandi*.
