- A perfect gift for children
- Packed with stories and activities that make learning math fun
- Includes 8 pages of stickers
- Designed to introduce the concepts of multiplication, times tables, division, and calculus

Let's go on an adventure! Inside a busy restaurant kitchen, we'll need to use multiplication and division to uncover a much-needed secret recipe! Through the visual language of math, this book teaches readers to interpret and translate quantities and dimensions through easy-to-understand suggestions and methodologies for using multiplication tables, solving mathematical problems and seeing their relevance in everyday life. Each chapter begins with a short story to introduce a new mathematical exercise – cleverly crafted to stimulate irresistible curiosity and foster a love for math in any young reader! Ages 8-9

Tecnoscienza is a group of authors and educators that, for the last 15 years, have disseminated knowledge about science, technology, math, and the environment for museums and corporations alike. Their published titles have been translated worldwide.**Agnese Baruzzi** holds a graduate degree in graphic design and has worked as an illustrator and author since 2001. Her books have been published in several countries around the world.
