- Around 40 international events: real, hybrid, virtual, immersive

The new edition has been shaped by a both turbulent and exciting year. The demand for events and the delight about real experiences were huge. At the same time, war and its economic consequences have been a cause of great concern. The book collects this multitude of formats, from small but accomplished communication forums to virtual specialist conferences and captivating spatial experiences. The result is a realistic cross section of social requirements, current experience formats and difficult framework conditions.

Text in English and German.
