- This innovative series speaks both to parents and their little ones about first experiences
- Suitable for ages: 3 plus

Little Tim is the central character for this innovative series that speaks both to parents and their little ones. Each of the first four books in the series deals with a fundamental problem that might affect three- to five-year olds: fear, especially of the dark, anger and aggression that are frightening and difficult to manage, jealousy, perhaps due to the arrival of a new family member and the shyness that makes it difficult to face new situations such as the first day of nursery school. The book's point of view makes it unique. It speaks directly to the reader, describing a problem and providing five small, simple solutions to help face it. All of the points are imaginative and written using language suitable to the targeted age group with examples taken from the child's daily life that he or she can actually put into practice. Ages: 3 plus
