- **In-Depth Insight:** Packed with historic and modern photographs, technical sheets, and fascinating details that offer a superior visual and informative experience compared to other aviation history books
- **Comprehensive Coverage of Aviation History:** Includes 27 chapters that cover everything from the pioneering era to modern superfighters and drones, making it versatile compared to more specialised titles
- **High-Quality Format:** Made in a premium large format with eye-catching design and carefully-designed layout
- **Competitive Positioning:** Combines coffee table book appeal with in-depth technical content, appealing to both general readers and industry experts
- **Renowned Expert Author:** Written by one of Italy's foremost aviation historians, Riccardo Niccoli

Flight: The Epic History of the Quest for the Skies illustrates the remarkable story of flight across 27 comprehensive and engaging chapters focusing on a particular aircraft or pivotal moment in aviation. With historic and contemporary photographs, detailed technical sheets, and profiles of iconic aircraft, this book explores the latest aerospace innovations in legendary warplanes, seaplanes, helicopters, and modern airliners. Expert anecdotes and insights provide a complete, immersive experience, ideal for enthusiasts and professionals seeking to understand the past, present, and future of aviation.

High-Quality Photos: A unique visual experience with hundreds of historic photographs.

Historic Milestones: Each chapter focuses on a particular aircraft or pivotal moment in aviation evolution with insights into iconic aircraft and modern technology.

Comprehensive History for Aviation Fans: Perfect for enthusiasts, collectors, and industry professionals.

A Look into the Latest Innovations: Discusses the Airbus A350, Boeing 787 Dreamliner, Gulfstream G800, drones, tiltrotors, and superfighters.

Immersive Reference Book: Includes anecdotes, technical sheets, and fascinating facts.

Riccardo Niccoli, journalist, writer, photographer, and one of Italy's foremost aviation historians, has published articles and photographs in specialised press since 1982. A graduate in Political Science, he collaborates as a freelancer with various magazines and publishers across Europe and the United States, and has authored numerous books and other works in the field of aviation.
