- 40th anniversary edition with forward by Amelie Frost Benedikt, Philosophy Professor Emerita
- ***For An Architecture of Reality*** is one of the most well-known and beloved architectural essays of the last two generations

In ***For an Architecture of Reality***, Michael Benedikt explains four quintessential qualities of Realness; presence, materiality, significance and emptiness. Benedikt's objections to Postmodern inauthenticity in the 1980's is relevant once more as architects design in an increasingly virtual world.

Michael Benedikt was the Director of the Center for American Architecture and Design at the University of Texas at Austin, where he taught from 1975-2025. Michael held the Hal Box Chair in Urbanism, and was an ACSA Distinguished Professor of Architecture. He was a graduate of Yale University and of The University of the Witwatersrand, South Africa. His other books are*Deconstructing the Kimbell, Cyberspace: First Steps, Shelter: The 2000 Raoul Wallenberg Lecture, God Is the Good We Do* and fourteen volumes of the journal series *CENTER: Architecture and Design in America.*
