Illustrations	131 color
Price	£157.00

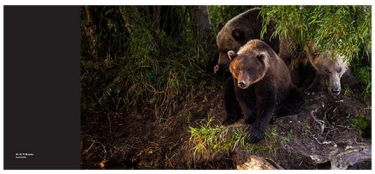

- A collection of images that explore the diverse and multifaceted world in which we live
- Three hardback volumes presented in a slipcase

This book of photographs by Swedish photographer Christer Löfgren explores the diverse and multifaceted world in which we live, from north to south. In comparing photographs of various cultures, diversity is more noticeable: the colours, clothes, and food point to the identity of each place. The further north or south of the equator you travel, colours are paler, and the food is milder and less spicy. The more extreme nature is, the more difficult the lifestyle. These vibrant photographs ask us to broaden our vision and grasp the complexity and beauty of the world as a global whole. This deluxe edition consists of three hardcover books in a slipcase.

Photographer **Christer Löfgren** is based in Stockholm Sweden and has produced 16 books in various fields. His speciality is in travel and street photography. www.christerloefgren.com
