This is a richly illustrated monograph revealing William T. Baker's masterful detailing and superior craftsmanship of magnificent family residences. Showcasing 14 classically inspired homes of grace and beauty, each property reflects an astute comprehension of life as it is lived in the 21st century, with deliberate nods to historical aesthetics that coexist harmoniously with the architectural language of natural light, passive design themes, voluminous space, and fabulous comfort. Inspired by the bounty of classical architecture found in the grand homes of the southern United States, particularly the state of Georgia, the hallmarks of William T. Baker's architecture are extraordinary attention to details of craftsmanship and construction, and a keen eye for scale and proportion. His work clearly reflects the aspirations of the American Dream. This beautifully photographed monograph of William T. Baker's work is the third volume in IMAGES' successful *New Classicist* series, and showcases the exquisitely designed homes of the modern family, who entrusted Baker with their dreams and visions, and whose trust has been rewarded with classically inspired homes of grace and beauty. His work contributes greatly to some of the most aesthetically pleasing residences being built in the United States today.
