- A new addition to the De aedibus series
- A monograph on the work of Geneva-based architects Group 8

In 2000, a group of architects founded their office in Geneva. Since then – partly with changing personnel – they have continuously produced buildings in the Geneva-Lausanne region, often with experimental qualities. They include the 2018 GA building for the EPF Lausanne, and the CI residential tower in Meyrin, with an integrated private clinic.

Text in English and French.
