In 1967, a photojournalist named Baron Wolman met Jann Wenner and Ralph Gleason at a music conference. Wenner and Gleason told Wolman about a new publication they were starting. It would be about contemporary music and the musicians who made it. That magazine, *Rolling Stone*, would go on to become one of the most iconic magazines ever published and Baron Wolman was the first chief photographer. *Happy Daze: The Summers of Love* is a book celebrating Baron Wolman's incredible archive of photographs from three incredible years in cultural history. From festivals such as Woodstock and Altamont, musicians including Jimi Hendrix, Janis Joplin and the Grateful Dead and moments including the Human Be-In and Death of Hippie marches, Wolman was on the visual front lines of an important period in the history of American society. "At that moment it all came together for me as a photographer. I was invited to witness what was happening, "going down," culturally and socially, and I was taking photos along the way... who would have guessed that fully five decades down the line, we would be here still talking about what an incredible time it was."
