- This new omnibus edition contains creative, educational activities for using the *How Artists See* series in the home and classroom

This new omnibus edition of the ***How Artists See Teachers' Guide*** contains creative, educational activities for using the *How Artists See* series in the home and classroom. Each chapter in the new guide covers an individual volume in the series: Animals, America, Artists, Cities, The Elements, Families, Feelings, Heroes, People, Play, The Weather, and Work. Teachers will love the standards-based activities that explore artistic concepts and interdisciplinary themes and reinforce concepts children read about in each volume of *How Artists See*. For easy lesson planning, each chapter is cross-referenced to the national standards in the main content areas and skills are organized with a scope and sequence chart.

Colleen Carroll has been involved in education for nearly three decades as a classroom teacher, curriculum writer, and literacy specialist. She lives in the New York City area, where she writes and teaches reading.
