Publisher	HEEL
Binding	Hardback
Size	245 mm x 245 mm
Pages	144 Pages
Illustrations	100 color
Price	£19.99

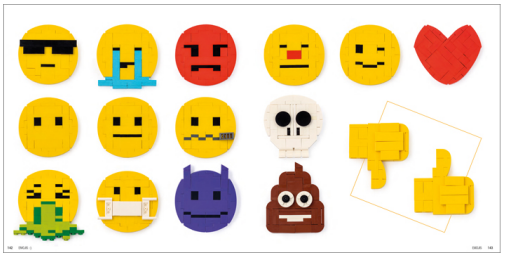

- A new how-to book for LEGO® fans on building models of iconic everyday items
- A new addition to the successful LEGO® library by renowned LEGO® enthusiast Joachim Klang

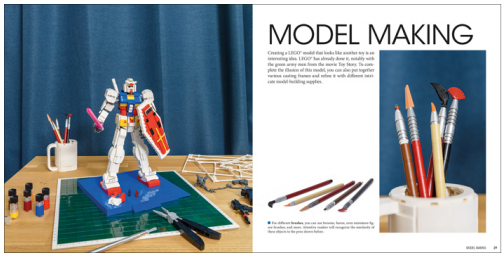

In his latest book, Joachim (Joe) Klang presents the reader with a fascinating choice of exclusively designed LEGO® models, featuring cool, classic objects that everyone will recognise.

All these iconic objects are presented through exploded views, giving LEGO® fans an impression of how they are put together, so they too can create iconic objects such as the Polaroid® camera, the Nintendo® Gameboy or the Rubik's cube using their own collection of bricks.

More LEGO® model books are also available from the author including:
Bricks and Tricks ISBN 9783958437623
Tips and Tricks ISBN 9783958434790

Joachim Klang has been enthusiastic about LEGO® bricks from his early childhood, and has been refining his skills ever since. He is well known within the international LEGO® community for his artistic and experimental use of the colourful brick. Joachim has published 10 best-selling books on how to build individual LEGO® models with the bricks from your home collection.
