• Charts the very best in Australian architecture through the course of a decade

What is it to be inspired? It is the state of being compelled to do something – something creative. The projects you will discover in these pages certainly inspire. The book is rich in ideas and possibility that show architectural creativity at its very best. But more than that, these projects represent the work that is being designed and built now. *Inspire* is a celebration of print for the 2014 Australian Institute of Architects' National Architecture Awards winners. This is the fifth in a 10-volume series that presents an inspirational visual survey of the Awards from 2010 to 2019, charting the very best in Australian architecture through the course of a decade. The National Architecture Awards bring together outstanding designs from all around the country. Geographically, the projects are very evenly dispersed this year and the National Jury travelled widely across the country in its quest for excellence.
