- An overview highlighting the most recent works by Swedish artist Lena Mattsson, encompassing her whole career

Lena Mattsson (*1966) is a distinguished Swedish artist. Her practice includes photography, performance and social critique, as well as film and video art. Her new book encompasses her whole career, yet at the same time, it highlights her most recent works and future perspectives: especially Mattsson's works on legendary Swedish publisher Bo Cavefors or her latest experiments with light and projections. The selection of photographs, film stills, and documentary material forms the basis for the profound discussion of her work by Lars Gustaf Andersson, John Peter Nilsson, and Charlotte Wiberg.
