"I don't set expectations. I let the frame find me. I believe if you follow the light—and your own—something real will always emerge."— Ovidiu Selaru

Ovidiu Selaru, born in Romania, discovered his passion for photography at an early age in a creative family of artists. With a background in machinery and a deep understanding of geometry, he combines his technical knowledge with an artistic eye to explore the world through the camera. He has lived in London for 16 years, where his fascination with urban life has blossomed. His philosophy of capturing the essential moments of life is reflected in each of his photographs. His work, which has been featured in prestigious publications such as *Vogue* and *EYE-Photo Magazine*, speaks to viewers on a deep emotional level.
