- Fully illustrated with 76 images and 34 plans
- With an article by Matthias Castorph

Oliver Menzi, Philippe Bürgler and Helene Kuithan focus on ecological and economic sustainability, creating buildings with a precise, multifaceted architectural language. The range of services provided by the Zurich-based practice, which was founded in 2003, is reflected in the renewal of Basel SBB Station – from the production of a master plan to the development of specific details such as light fixtures.

Text in English and German.
