Modern Utopias is a reflection on the new semi-permanent exhibition at the Centre Pompidou Málaga which will be held until the end of 2018. This account of the great utopias of the 20th and 21st centuries will be told through the great works of art from the Centre Pompidou in Paris. Thematic, multimedia, and chronological, it consists of six extensive chapters: "The Great Utopia", "The End of Hopes", "Ensemble", "The Radiant City", "Imagining the Future", and "The Golden Age". The selected works speak about the historic events that have marked our time and have fed and nurtured the imaginations and ideals of modern and contemporary artists. Text in English and Spanish.
