- Sixteen notecards (each with a different design), housed in a presentation-quality box
- Beautiful botanical illustrations from a 19th-century atlas of mushrooms
- Includes popular edible mushrooms, like the chanterelle and black trumpet, as well as deadly beauties, like the fly agaric
- Mushrooms are everywhere! Merchandise these premium notecards with your other mushrooming and foraging items

Mushrooms includes 16 outstanding botanical illustrations from León Dufour's *Atlas of Edible and Poisonous Mushrooms* (1891). These lifelike colour engravings include the chanterelle and black trumpet mushroom, fit for a delicious meal, and others best left on the forest floor, like the deadly fly agaric. Presented in a handsome box, these notecards are the perfect stationery for the forager or mycophile in your life.
