How do we move around the world with awareness? Thanks to the 5 senses, which allow us to experience reality! In this book, the psychotherapist Chiara Piroddi provides games and activities that allow the child to learn, independently, through guided games and simple but accurate explanations, the anatomical characteristics of the five senses. At the end of the book, thanks to simple instructions, it will be possible to create additional Montessorian materials to experience the world beyond the book. Ages: 5 plus
