Publisher	White Star
Binding	Board book
Territory	World excluding Australasia, USA, & Canada. Italy and India non-exclusive
Size	180 mm x 160 mm
Pages	10 Pages
Price	£8.99

- A book kids can play with!
- Turn the wheel to make the image larger. It's a microscope!
- Simulate children's innate desire to explore the natural world!

Thanks to the simple but effective mechanism of a rotating wheel, this book turns into a microscope! On each page, children will be able to take a closer look at a flower, ant, pile of sand, or snowflake to find out what they look like up close. Just turn the wheel to 'zoom in'! Colourful illustrations by Esme Lee, short engaging text, and a book you can play with are the perfect tools to stimulate children's innate curiosity and desire to explore the natural world.

Esme Lee who originally graduated from the University of Brighton as a 2D print designer, now translates her work into illustration. Using bold colours and a strong graphic look, Esme loves to bring narrative and storytelling to life in a unique way. She usually starts her doodles drawing traditionally with pen and paper but refines and colours them digitally after, to ensure the best outcome.
