- A stunning selection of images revealing the unseen details of everyday plants, fruits and vegetables captured by Giovanni De Sandre

The spectacular close-up images contained in this book show nature in a new light. The curious and inquiring photographic lens of Giovanni De Sandre reveals unexpected details, an amazing world hidden in well-known plants, some of which we use in the kitchen every day.

Naturalis fons

delivers a clear message to its reader: to appreciate the wonders of nature by learning to look with new eyes at the most common and apparently insignificant plants.

Text in English, Italian and French.
