Publisher	Abbeville Press
Binding	Hardback
Territory	World excluding USA, Canada, Puerto Rico, and Australia
Size	229 mm x 229 mm
Pages	32 Pages
Price	£9.99

- A follow up the successful Abbeville Kids title *Alphabet Everywhere*, Elliott Kaufman's creative photography book allows children (and adults) to discover unintended number shapes found in unexpected places

As in *Alphabet Everywhere*, where there was a world of letters just waiting to be discovered, *Numbers Everywhere* reveals how digits and mathematical symbols can be found in the world around us – if we know how to look for them. In this engaging and delightful book, Kaufman reveals the "secret" life of numbers through his photographs, showing how they can be found in things we encounter everyday. Each number is represented by multiple images, unintentionally created by the intersection of architectural details, shadows, light, or natural elements as caught by the photographer's keen eye. In addition, *Numbers Everywhere* includes formulas for budding mathematicians to solve. This fun approach also reinforces the notion that learning to see the familiar in new ways encourages visual literacy and creativity.

With an eye-catching die-cut hardcover, *Numbers Everywhere* will inspire number-hunters of all ages, and appeal to both children's and gift buyers.
