Price £4.99

- Designed to help babies start to recognise colours and shapes
- Charming black, white, and red illustrations by Agnese Baruzzi

A series of board books intended to develop the visual skills of newborn babies. The shapes in these books are easy to recognise, thanks to the high contrast of the images in black, white, and red, the first three colours babies can perceive. Opposites includes images representing opposing concepts like small and large, empty and full, hot and cold, and open and closed. Ages: 0 to 12 months

Agnese Baruzzi graduated with a degree in graphic design. She has worked as an illustrator and author since 2001. Her books have been published in several countries around the world.
