- Discover Katrien Vandierendonck long lasting and stylish flower arrangements: dreamy romantic, colourful contemporary or minimalist zen

Outdoor is in! The line between inside and out has become blurred: more and more, the garden is considered an extension piece of the living room, a true multifunctional outside room with its own style and atmosphere, where one can lounge, relax, eat and enjoy oneself the whole year through. The word 'garden' implies greenery. Whether we talk about intimate, hidden corners, snug terraces or skilfully decorated conservatories, colourful flower accents and fanciful details of natural materials will determine the atmosphere and character of the green living room. For every opportunity or personality, florist Katrien Vandierendonck has designed long lasting and stylish flower arrangements: dreamy romantic, colourful contemporary or minimalist zen. They let us enjoy to the full the possibilities of the outdoors. Text in English & Dutch.
