- Presents the work of Pablo Horváth including the extension of the school facility in Riom-Parsonz

Pablo Horváth pursues an architectural direction in which the craftsmanship contrasts with the language of the elegant and trendy design. He has designed a number of remarkable buildings since 1993, among them two idiosyncratic multi-family houses in Chur (2004), and the extension of the school facility in Riom-Parsonz (2006).

Text in English and German.
