- Kids can travel the world and discover Earth's secrets with this guide that features cool infographics, colourful illustrations, and scientific data
- Suitable for ages: 8 plus

It's never been as much fun to explore our planet! Kids can travel the world and discover Earth's secrets with this guide that features cool infographics, colourful illustrations, and scientific data. It zooms right in, with 16 different plates that illuminate everything from the atmosphere to the ocean depths, icy tundra to burning-hot deserts, and tiny bugs to gigantic elephants. Learn about the longest rivers, the highest mountains, the fastest animals, and nature's other record breakers. By the time children have finished their journey, they'll understand exactly why we're the planet's guardians and must respect and nurture Earth, our home. Ages: 8 and up

Chiara Piroddi is a psychologist and a child psychotherapist. She is the author and co-author of scientific publications in the field of neuropsychology and teaching methods for children with learning difficulties.
