Plant Arrangements is the eighth and final volume in the successful series *Creativity with Flowers* by Life3 designers Per Benjamin, Tomas De Bruyne and Max van de Sluis. Life3 arranges floral ornamentations with fresh green and blooming plants, focussing on the lifespan of the arrangement. *Plant Arrangements* will provide you with original and long-lasting floral decorations for a variety of occasions, from bold, natural-looking containers for sun-drenched patio tables, to stylish and carefully manicured centrepieces for any special get together. The designers of Life3 allow florists around the world to share in their expertise and ideas. They introduce the expressiveness of floral design, each from his own recognisable and individual style. They take the reader on a journey through the history of the floral table piece and share their views on the future of this arrangement. Life3 shows you all the tricks and techniques to make it your own, in extensive series of step-by-step photos, with comments and personal thoughts on design, technique and the emotional aspect of the work. Go backstage with this inspirational book and learn from the masters!
