- Photographic art book on a contemporary arts and crafts exchange between Qatar and Morocco sponsored by Qatar Museums
- Accompanied the *Crafting Design Futures* exhibition held in Doha, from 30 November to 30 December 2024

A lavishly produced art-book filled with photography documenting an exchange between five Moroccan artists/designers and four Qatar-based artists/designers, who visited each other's countries, immersing themselves in the traditional crafts before returning to their own studios to produce a work or works inspired by what they had seen. The exchange culminated in an exhibition in Doha in December 2024 entitled *Crafting Design Futures*, which was held as part of the Design Doha Residency programme and year of Culture 2024 Qatar-Morocco, under the umbrella of Qatar Museums. Preface by film director and photographer Tala Hadid.

Text in English and Arabic.
