Pages	64 Pages
Illustrations	42 color, 27 b&w
Name of series	Anthologie
Price	£21.50

- Fully illustrated with 42 images and 27 plans

For Zurich architect Stefan Wülser, architecture is not reduced to the craft of designing and implementing the design, but also involves thinking about its socio-cultural significance in contemporary society. With the house in Bassersdorf, for example, he developed a programmatic building that rises above an existing supporting structure in a direct, bricollage-like construction that is gestural and expressive. With an article by Tibor Joanelly.

Text in English and German.
