- Charts the work of Basel architects Ives Stump and Hans Schibli

The Basel architects Ives Stump and Hans Schibli became renowned in 2002 following two impressive facilities, namely the special residential school in Riehen and the Swiss School for Guide Dogs in Allschwil. One estate is embedded in the open landscape, while the other is placed onto a gentle slope like a small garden city. Since then, they have continued to build further buildings of a high architectural value.

Text in English and German.
